SPI Industrial Connectors

MIL-C-26482 SERIES II

MIL-C-26482 SERIES I

MIL-C-5015

MIL-C-5015 REVERSE BAYONET

SPI has proudly served the interconnect industry since 1984 and during this time the one consistent thing we've seen is change. By focusing on emerging technologies and listening to our customers, SPI has been there to bring the ever-changing industry the connector products it demands. We have done this by continually developing a wide product offering, meeting demanding product performance requirements and offering un-matched customer service.

Our expertise has grown to include nearly all areas of the Electrical and Electronics industries. The major markets we serve include Industrial, Power Distribution, Industrial Controls, Robotics, Heavy Equipment, Mass Transit and Specialty Vehicles.

To offer the greatest value to our customers, SPI has global operations in Asia while maintaining our corporate headquarters in the Dayton, Ohio area. Our Project Managers, Engineering department, Logistics team and Q.A. staff deliver the best service in the industry.

We look forward to serving... YOU!

Tri-Lock
Heavy Power Connectors
OEM Custom Connectors

Services:

Global Manufacturing
MRP Management
Inventory Control

SNAP-LOCK

TRI-LOCK

TRI-LOCK

HEAVY POWER CONNECTORS

CUSTOM CONNECTORS *from design through production*

SPI was established in 1984 with a primary focus on providing cylindrical connectors and building cable assemblies for the military and aerospace markets. Over the years we have extensively broadened the markets we serve and the range of solutions we offer, but our entire focus is still on interconnections of all types with a particular emphasis on OEM custom designs.

In addition to the industrial connector products featured in this brochure we also offer a comprehensive line of cable assemblies. Please visit our web site to see our full product line.

We look forward to the opportunity to serve you!
