

# 26482 HD Connectors

**Applications:** Power & Signal, Radio, Telecommunications, Military, Medical, Industrial

SPI-Connects is proud to introduce our latest High Density connector family, modeled on Mil-C-26482 Series1. This new series retains all of the great features of 26482 but provides them in a configuration that gives you twice the number of contacts in the same shell size.

## Features

- Wire range: 22 to 30 AWG
- Withstands high vibration
- Can be used in IP67 environments
- Excellent for space-critical applications
